Measurement and repair on real data (no LLM)
GraphRAG-Bench Novel
20 novels, 2,010 questions
Loss census
(census_rgi.py)
Result tables
(CSV, JSON)
GraphRAG 3.1.1
(fast pipeline code)
Selection analysis
(selection_loss.py)
Analysis
(analyze.py)
RGI builder
(two-tier input, bridges)
Figures, tables,
number macros
Answer-level test (pre-registered; needs an LLM-built index)
Measurement toolkit
9 modules, 166 tests
Experiments E0 to E9
gates G1 to G4
Frozen thresholds
(GATES.md)
Controlled simulation and demonstration
Synthetic index
(data.js, sim.js)
GraphRAG X-Ray
dashboard (app.js)
Configuration
sweeps
